Glossary

Bleeding. A model in this state must perform a Toughness roll in its every Strategic phase. A failed roll causes the model to suffer a Wound.

Burn (X). When a model suffers at least one Wound with this Trait, the attacking player may perform an X amount of Damage Rolls with ARM value 0. Every successful Damage Roll causes the model to suffer a Wound. If this wound causes a model to become Dead (State), the model is removed from the field.

Crouched. The Hitbox of a Crouched model becomes the size and volume of its base. While in this state, the model's Speed and Armor value is halved and its Attack Strike value becomes 1. Crouched models cannot make other models Engaged (state). During the movement step, a model in this state may only declare Walk or Idle. In the Active role, this state may be voluntarily canceled during the model's movement step. This state may also be canceled with a Dodge.

Ignore Armor. A Hit with this Trait reduces the hit model's ARM to 0 for the duration of the Damage roll.

Immobilized. A model in this state cannot perform any Movement,Special Movement or Special Action. This state can be canceled with a successful Dodge, which may be performed either with Agility or Toughness. When it declares Dodge, it cannot move or enter/cancel the Crouched state, unless it performs a successful Dodge.

Knockback (X). A model Hit with this Trait is moved from the point where its Movement ended during the Movement step. It is moved for X inches away from the attacker at the end of the Resolution step (exact direction is the attacker's choosing). This Trait does not affect models two or more Sizes larger than the attacker.

Knockdown. A model that suffers a Hit with this Trait becomes Crouched (State). This trait does not affect models two or more Sizes larger than the attacker.

Panicked. On a failed Intellect roll, the enemy model must also perform Walk towards the user for its entire Speed value (if able) at the end of the Activation Sequence. If it starts its turn Engaged it will declare Idle and Dodge. If the Movement of the model in this State would end past the edge of the field, the model is removed from play and counts as a loss. If the model fails the roll in its Reactive Role, it can only declare Dodge towards the edge of the field or Nothing as its Reaction.

Stagger. A model that suffers a Hit with this Trait loses 1 Activation Point (until the end of the turn). This Trait does not affect models two or more Sizes larger than the attacker.

Sweep. On a successful Attack roll, all models within this model's LoS and Melee Reach suffer a Hit.

Throwing. An Item with this trait enables a Ranged Attack with RCH equal to the user's T. The STK value can be up to the Quantity of the Item. Upon use, remove QTY of the item equal to the STK, even if the Attack is unsuccessful. If the Attack incapacitates or kills the target model, you can recover the Item by making Base Contact with the target.
