Glossary

- Bleeding.** A model in this state must perform a Toughness roll in its every Strategic phase. A failed roll causes the model to suffer a Wound.
- Mindgame.** A Dodge against an Attack with this Trait uses INT instead of AG. If a model suffers a Mindgame Hit with PW, it rolls INT instead of making a Damage Roll. On a failed roll, the model suffers damage.
- Panicked.** On a failed Intellect roll, the enemy model must also perform Walk towards the user for its entire Speed value (if able) at the end of the Activation Sequence. If it starts its turn Engaged it will declare Idle and Dodge. If the Movement of the model in this State would end past the edge of the field, the model is removed from play and counts as a loss. If the model fails the roll in its Reactive Role, it can only declare Dodge towards the edge of the field or Nothing as its Reaction.
- Poison.** WEAK POISON; If a model suffers a Wound with this Trait, it becomes Weakened (State) until its next Strategic phase.
- Poisoned.** A model in this state must perform a Toughness roll with a -6 modifier in its every Strategic phase. A failed roll causes the model to suffer a Wound.
- Weakened.** A model in this state has halved Toughness, and -1 Stamina.
